CCM Super Tacks X Hockey Helmet

[Leave a Comment](#) / [Helmets](#) / By [dlz256](#)

Overview: The newest helmet, and our vote for the overall best helmet, goes to the CCM Super Tacks X Hockey Helmet. With this helmet, CCM has reinvented the way helmet protection is designed and incorporated.

Key Features:

- The innovative 3D-Printed continuous liner, fitted entirely with D30 smart material, has been optimally created based on a variety of different in-game situations that help disperse impacts away from key areas of the head.
- Liner also provides pro-level fit by better conforming to the specific shape of your head for a continuously responsive fit. This design also helps increase airflow throughout the entirety of the helmet, keeping you cool during gameplay.
- Super Tacks X Helmet features a tool-free front-to-back adjustment system. This easy-to-use adjustment will offer a wider size range for the best-customized snug fit.
- Pro-inspired look and design that is both stylish and very efficient at generating airflow throughout the helmet.
